OBJECTIVE STATEMENT

I am a Bachelor of Science (Honours) in Information Technology student seeking a **16-week internship** from **28 July 2025 to 14 November 2025**. Skilled in programming skills and have extensive knowledge in front-end development and UI/UX design. Active in organizations and competitions, demonstrating strong teamwork and leadership. Eager to apply IT related skills to real-world challenges while contributing to team success.

EDUCATION

Asia Pacific University of Technology & Innovation, Bukit Jalil

Sep 2023 - Present

Bachelor of Science in Information Technology, Business information System, CGPA : 3.45

ORGANIZATION EXPERIENCE

Asia Pacific University Indonesian Student Society (AUISS)

Jan 2025 - Present

Art, Sport, and Culture

- Managing eSports teams, overseeing player development and training sessions
- Organizing and executing eSports tournaments and live events, coordinating logistics, scheduling, and on-site operations.

PROJECTS

Hospital System Management - University Project

- Designed and built a Hospital Management System using **C Programming**, optimizing hospital operations at General Hospital with role-based access, **EHR management, appointment scheduling, billing, and inventory control**.
- Strengthened **data security and system stability** by implementing **secure coding practices, rigorous testing, and debugging**, ensuring efficient handling of large datasets while preserving data integrity.

Scholapedia - University Project

- Developed Scholapedia, an E-Learning System, integrating **user authentication, course management, and interactive learning modules** for an engaging digital education experience.
- Developed a **secure, scalable C# backend** that supports **user registration, content management**, and **real-time progress tracking** through comprehensive **CRUD operations**.
- Designed a responsive and intuitive **UI** using **HTML5, CSS, and JavaScript**, ensuring seamless navigation and accessibility across devices

Redesign Easybook.com - University Project

- **Redesigning Easybook.com using Figma**, enhancing **UI/UX** for a more intuitive, visually appealing, and user-friendly experience.
- **Optimizing booking operations and user flow**, improving navigation, accessibility, and overall functionality for seamless transactions.
- **Applying modern design principles and user-centered methodologies**, ensuring a responsive, aesthetically pleasing, and efficient interface.

TECHNICAL SKILLS

Programming Language

- | | | |
|----------|--------------|------|
| • Python | • Javascript | • C# |
| • C | • MySQL | • R |
| • Java | | |

Tools

- | | | |
|------------------------------|----------|--------------------------------|
| • Microsoft 365 Applications | • Github | • SQL Server Management Studio |
| • RStudio | • Notion | • Jira |
| • SAP | | |

AWARDS AND CERTIFICATIONS

- Getting Started with Web Development by SAP
- Career Essential in Software Development by Microsoft
- Career Essentials in GitHub Professional Certificate
- Second Runner Up of CYBER TRADITIONS BATTLE by BAT 2024
- First Place Festival Idea Putrajaya 2024
- Forth Place ACS Edu Tour 2024
